**FOR IMMEDIATE RELEASE: 4/25/23**

### *Pure IT and Envisant Partner to Offer Cloud Technology to Credit Unions*

**HOUSTON, TX** - CUSOs Envisant and Pure IT have partnered to create Cloud+Union, a bundled service offering for small credit unions across the nation to transition away from on-premises hardware and take the leap into the cloud.

Many small credit unions struggle to meet the technology, security, and access needs of today's business and regulatory environment. With a next-generation network implementation, a cloud-focused software stack, and Pure IT as a Managed Services Partner, Cloud+Union is helping credit unions start their journey to the cloud.

The Cloud+Union product, launching on May 1st, will have security, compliance, and collaboration features like Multi-Factor Authentication, a new Microsoft implementation, and industry-leading firewalls. As credit union technology progresses into the Cloud, additional capabilities and complexity will become available.

Jack Smith, CEO of Pure IT, remarks, "Cloud+Union is a game-changer for small credit unions seeking secure and compliant IT services. With its cutting-edge technology and dedicated team, Cloud+Union delivers peace of mind, allowing credit unions to focus on what matters most - serving their members. This innovative product is a testament to the power of collaboration and technological advancement for the financial industry."

Libby Calderone, President and COO of Envisant, says, "With information security a top priority, providing access to modern, cloud-based technology creates a direct line for credit unions to work smarter, not harder. Envisant stands behind credit unions to connect them with tools that propel them toward digital transformation and incredible member service, all while maintaining the highest security standards. Cloud+Union with Pure IT is a partnership that we're extremely proud of because it is specifically designed to provide that access and ease the transformation for credit unions."

**Pure IT** – *Pure IT is a Credit Union Service Organization that provides Strategic Technology*

*Consulting. We partner with Credit Unions to offer Professional Services, Infrastructure Project Implementations, and Technology Managed Services.
